ȘI PERSOANELOR VÂRSTNICE

## **Measure 65.1. Implementing and monitoring the National Strategy for promotion of active ageing and protection of aged persons 2015-2020**

---

- **Adopted by Government Decision no. 566/15 july 2015**
- **Strategic objectives** in the field of active ageing:
  - **Prolonging and improving the life standard of old persons**
  - **Promoting social active and respectable participation of old persons**
  - **Obtaining a better rate of independence and safety for persons with needs of long time care**

### **Transversal objectives:**

- **Delaying physical ageing and chronic diseases**
- **Preparing the medical system to serve ageing population**

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Operational action plan to implement, in 2016-2018, the action directions stipulated by National Strategy for promotion of active ageing and protection of aged persons 2015-2020

### Priority measures:

- Consolidating the social protection system to improve the life standard of aged persons, by establishment of a program to support aged population with no income, especially in rural areas (integrated in the **minimum inclusion income**),
- Changes of human resources policies for a better integration of older workers, including volunteer action programs;
- Improving skills, employability and independence of older persons, by increased number of counselling and vocational training programs dedicated to older persons, evaluation of the competencies acquired in nonformal/informal system, promotion of mentorship activities, etc;
- Highlighting a positive image of older population, promoting its involvement in society and social inclusion;
- Improving the infrastructure of public spaces in term of accessibility in order to answer specific needs of old population,
- Preventing abuse on old population and its social exclusion;
- Creating a unified system of long duration care by establishing a compartment for policies and programs in long duration care within MMFPSPV, regulating the funding system of long duration care, etc.
- Ensuring financial, human and material resources sufficient for developing the long duration care system, including by implementing the case management for dependent old persons.

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure 65.2. Community elders – involving old people in child care programs

### Specific objectives:

- Developing social services in disadvantaged communities
- Promoting the concept of active ageing
- Promoting volunteer activities and encouraging the inclusion of aged persons in these activities
- Reducing certain social costs
- Increasing the employment rate within old workers (55-64 years, inactive or unemployed)
- Developing competencies of older workers adapted to the demands

### Expected results:

- ✓ Reducing the lack of personnel in social services
- ✓ Reducing the number of aged persons economically and socially dependent
- ✓ Stimulating the employers to hire older workers (55-64 years, inactive or unemployed)
- ✓ Evaluating competencies acquired in non-formal / informal system, envisaging insertion on labour market / inclusion in a continuous vocational training (CVT) program
- ✓ Organization by employers of apprentice programs, participation at vocational training programmes
- ✓ Stimulating mobility for employment

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure 65.3. Community multifunctional centres

### Specific objectives:

- Developing an integrated approach concerning provision of services
- Consolidating the capacity of public services for social assistance
- Increasing horizontal and vertical coordination and step-by-step transition to integrated services
- Estimating costs and allocating adequate budget
- Developing methodologies, protocols and work procedures

### Expected results:

- ✓ Creating multi-functional centres
- ✓ Employment of minimum one social assistant in each settlement
- ✓ Reducing the dependency of beneficiaries on social transfers
- ✓ Increasing the weight of social services in the social assistance measures
- ✓ Integrated approach of family needs and of each member's needs

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure 65.5 - Financing services of home care for aged persons

---

### Specific objectives:

- Regulating, developing and financing a spectre of customized services in order to fulfil the specific needs of aged persons, with focus on **home care system**
- Developing social services for older people
- Ensuring care for aged persons in their family environment

### Expected results:

- ✓ Developing mixed market of social services
- ✓ Using existing labour force at community level
- ✓ Reducing costs with residential care

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## 65.6 Reducing social and family trauma caused by pathology associated to old age

---

### Specific objectives:

- Developing medical and social services for old people and their families
- Awarding more importance to palliative care
- Developing home care services
- Reducing the risk of social exclusion for both the aged person and for their family ./ close people

### Expected results:

- ✓ Creating integrated services for all communities
- ✓ Increasing the number of home care units
- ✓ Using existing labour force of the community

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure F 6 - Community team for integrated interventions

---

### Specific objectives:

- Consolidating the capacity of public services for social assistance
- Preventing social risk situations

### Expected results:

- ✓ Employing at least one social assistant (higher education) for each settlement, as well as other categories of personnel (in field of: healthcare, education, employment etc.)
- ✓ Using efficient tools to analyse and diagnose in social field and to define the intervention needs
- ✓ Using existing labour force of the community

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure 6.1 - School – engine for inclusion in disadvantaged areas

---

### Specific objectives:

- Focusing social services around school for members of disadvantaged communities
- Substituting SPAS and offering information, counselling and social services of healthcare and education to pupils and their families

### Expected results:

- ✓ Consolidating the role of school in disadvantaged areas
- ✓ Increasing the level of education and school training
- ✓ Prevention of school leaving
- ✓ Reducing the risk of social exclusion
- ✓ Qualified labour force

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure F14. Strategic map of social services and of the need for development and providing of social services

### Specific objectives:

- Ensuring a **coordinated and evidence-based approach** in the elaboration and implementation of policies, programmes and interventions oriented to vulnerable persons and to the poor and marginalized areas;
- **Implementing a decision-making process within MMFPSPV** and at local level, based on information obtained through rigorous methodology, fundamented empirically, based on evidence and statistic data;
- **Developing and using a set of standard instruments fo planning and provision of social services** at local level in order to increase the quality of public services;
- **Training the specialised staff**, at central level, and at the level of local public authorities regarding public policies oriented to the citizen and other themes of interest

### Expected results:

- ✓ Reduction of disparities of development between more developed and marginalized communities.
- ✓ Planning social services in time and formulating measures with more accurate potential impact
- ✓ Diversification of types of social services offered at community level based on real needs.
- ✓ Avoiding long term costs of social risks to which marginalized persons are exposed
- ✓ Elaborating instruments that will be the basis of local/county/national strategies to develop social services

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure T3. Digital alphabetisation of persons in marginalised communities

### Specific objectives:

- Connecting people to knowledge-based economy and to social e-services and preparing conditions of social innovation
- Implementing the concept of e-inclusion by expanding the network of Points for Public Access to Information (PAPI).
- Increasing access to IT&C technologies
- Creating digital competencies for disadvantaged persons
- Increasing the rate of using electronic services for public interest

### Expected results:

- ✓ Avoiding long term costs of social risks to which marginalized persons are exposed
- ✓ Reducing disparities of development between most developed and marginalized communities
- ✓ Increasing literacy within vulnerable persons
- ✓ Increasing access to IT&C technologies
- ✓ Improving the rate of using electronic services for public interest
- ✓ Educated and productive labour force.

MINISTERUL MUNCII,  
FAMILIEI, PROTECȚIEI SOCIALE  
ȘI PERSOANELOR VÂRSTNICE

## Measure F12. Healthcare in rural areas

---

### Specific objectives:

- Developing medical and social services for persons in rural areas
- Reducing the risk of social exclusion caused by medical affections
- Increasing the role of prevention and the importance of education for healthcare
- Reducing costs for treatment in hospitals

### Expected results :

- ✓ Establishing integrated services for all rural communities
- ✓ Using the existing labour force within the community
